

Airdog - X3

Waste-Free Air Purifier

Built with Airdog's patented TPA Technology, Airdog X3 is rated as 99% effective against smoke allergens, dander, pollen, mold & even infectious Influenza virus!

Similar to the best selling Airdog X5 design, the Airdog X3 is the smallest and most simplified indoor air purifier in the Airdog X-Series line - while still providing the optimal and effective results of Airdog's patented TPA Technology to destroy indoor air pollutants. Capable of purifying up to 800 square feet, the Airdog X3 will powerfully, but quietly provide four cycles of fresh air per hour - making it the perfect compact sized solution for spaces such as apartments, bedrooms and offices.

Product Highlights & Benefits:

- Effective for Areas Up to 800 Square Feet
- Lightweight Design & Easy to Operate
- Harnesses Airdog's Patented TPA Technology to Destroy Micro Pollutants
- Removes Smoke, Odors & Viruses from Indoor Air in as Little as 20 Minutes
- Requires No Replacement Filters - Just Wash As Needed & Continuously Reuse
- Includes color changing LED air quality sensor and motion sensor night-light. (Exclusive Feature Only for Airdog X3)
